

A black and white comic book illustration. In the upper right, a large, textured sphere resembling a moon or planet hangs in a star-filled sky. A spaceship, possibly a Star Destroyer, is shown in a dynamic, tilted position, appearing to be caught in a massive, swirling storm or nebula that fills the lower half of the frame. The ship's hull is detailed with various panels and structures. The overall style is high-contrast and dramatic, typical of classic comic book art.
